

1 **CS252 Object-Oriented Programing with Java (Zaring)**

2 **Fall 2021**

3 **Project Phase 6**

4 **Due by 5:00pm on Wednesday, November 17**

5 **No late assignments accepted**

6

7 **This phase is a project-group assignment.**

8

9 **Description:**

10 Firm up the GUI and the internals of your application enough that at least

11

12 • The appearance of your running application is in almost-final form (as far as you can tell at
13 this point). This proto-version of your application can still be something of a mockup (e.g.,
14 many of the menu items/buttons many not function, display areas may not show anything,
15 etc.).

16 • As many of the following features as possible have been added

17 • The modeled VM252 is largely in place

18 • The view of the modeled accumulator and program counter are kept up to date

19 • The contents of the modeled accumulator and program counter can be altered

20 • An object file (perhaps an object file having a hardwired name) can be executed

21

22 **What to Hand In:**

23 • Each group should submit a zip/gzip/tgz bundle containing all its all associated .java files
24 via the Phase 6 item on the Project page of the CS252 Katie course

25 • Each group should submit a PDF of a professional-quality document containing

26 • The revision number of your repository I should use to retrieve the files for this phase of
27 the project

28 • A detailed progress report of the work you've done, any changes you've made to your
29 initial plans, anything that is working, anything that's not working, the problems you're
30 encountering, and, for each group member, a log showing the days and times they worked
31 on this phase of the project.
